

Maryland Bikes to Work

Bike to Work Day 2013 is May 17th! For those who travel to work by bicycle throughout the year - keep up the great work! Never commuted by bike before? Now is the time to try! If you are bicycling to work for the first time on May 17th and like it, consider bicycle commuting in the future!

Organizations around the State will be hosting pit stops - below is a listing of a few. If commuting from home to work is not practical, consider driving to a park and ride lot along the way and bike from there! As you take part in the activities this year, remember to put safety first. Whether you are biking through the city, suburbs or rural area make sure to use your street smarts, stay aware of your surroundings and share the road! And even if you can't bike to work, support bicycle safety by sharing the road, looking out for bicycles and always passing with at least three feet of space.

SHA Headquarters will be hosting a pit stop at the intersection of Monument and Guildford streets in Baltimore, which will feature bike tunes ups by Twenty-20 Bicycling!
